# Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science)

#### Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science)

Since the mid 1990s, data hiding has been proposed as an enabling technology for securing multimedia communication, and is now used in various applications including broadcast monitoring, movie fingerprinting, steganography, video indexing and retrieval, and image authentication. Data hiding and cryptographic techniques are often combined to complement each other, thus triggering the development of a new research field of multimedia security. Besides, two related disciplines, steganalysis and data forensics, are increasingly attracting researchers and becoming another new research field of multimedia security. This journal, LNCS Transactions on Data Hiding and Multimedia Security, aims to be a forum for all researchers in these emerging fields, publishing both original and archival research results.

This third issue contains five contributions in the areas of steganography and digital watermarking. The first two papers deal with the security of steganographic systems; the third paper presents a novel image steganographic scheme. Finally, this volume includes two papers that focus on digital watermarking and data hiding. The fourth paper introduces and analyzes a new covert channel and the fifth contribution analyzes the performance of additive attacks against quantization-based data hiding methods.

#### From reader reviews:

#### **Billy Stinson:**

Information is provisions for folks to get better life, information currently can get by anyone with everywhere. The information can be a knowledge or any news even an issue. What people must be consider if those information which is within the former life are hard to be find than now's taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you get the unstable resource then you understand it as your main information there will be huge disadvantage for you. All of those possibilities will not happen throughout you if you take Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) as your daily resource information.

#### Cathryn Walker:

Do you have something that that suits you such as book? The book lovers usually prefer to select book like comic, limited story and the biggest some may be novel. Now, why not trying Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) that give your entertainment preference will be satisfied through reading this book. Reading behavior all over the world can be said as the way for people to know world better then how they react toward the world. It can't be explained constantly that reading routine only for the geeky individual but for all of you who wants to always be success person. So, for all of you who want to start reading as your good habit, you may pick Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) become your starter.

#### George Bash:

Reading a book to get new life style in this calendar year; every people loves to examine a book. When you study a book you can get a great deal of benefit. When you read ebooks, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. In order to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, these us novel, comics, along with soon. The Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) will give you a new experience in examining a book.

#### **Karen Tullis:**

A lot of people said that they feel uninterested when they reading a e-book. They are directly felt that when they get a half parts of the book. You can choose the particular book Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) to make your own personal reading is interesting. Your current skill of reading skill is developing when you including reading. Try to choose very simple book to make you enjoy to learn it and mingle the impression about book and looking at especially. It is to be 1st opinion for you to like to available a book and read it. Beside that the book Transactions on Data Hiding and Multimedia Security III (Lecture Notes in Computer Science) can to be your brand-new friend

when you're feel alone and confuse in doing what must you're doing of these time.
