Institution of Civil Engineers

Floods and Reservoir Safety, Fourth Edition Institution of Civil Engineers

Floods and Reservoir Safety, 4th edition provides authoritative guidance on flood protection standards, flood magnitude and freeboard - guidance which is essential for engineers who are responsible for the design and inspection of reservoirs. The fourth edition has been completely revised and updated by the Working Party on Floods and Reservoirs Safety which was established once more by the Institution of Civil Engineers at the behest of the UK Government to ensure that all publications are updated to reflect the latest research. This new edition takes into account the best current research and guidance that informs best practice for the risk-based design and management of reservoirs. The revised guidance will also set out best practice reflecting current thinking from around the world.
