This book offers a radical perspective uniting science with spiritual experience and non-ordinary views of reality. It provides a comprehensive view through physics, biology, psychology and human experience. The result is a connected web that shows the patterns connecting consciousness to material existence. It reveals the non-ordinary reality of intuition, spiritual experience and alternative medicine as not just experience created by human minds, but as the ground base of reality that underpins and defines material existence. Everything that universe consists of rests in patterns of relationship. All that we are lives in and influences those patterns. This is the source of our potential and possibility. See review for previous versions, and these testimonials:- "If you have not read Jon Freeman's new book I strongly suggest you do so. He will open your eyes to expanding notions of reality."
