Voices Found: Women in the Church's Song is a rich collection of hymns and spiritual songs by, for, and about women. The music is written overall in congregational hymn style and is intended for normal parish use. Some music is arranged for women's voices and is useful for women's groups or small choirs of treble voices. The book is a unique compilation of contemporary and historical materials that crosses boundaries of geography, time, and culture as it represents the diversity of the gifts of women and seeks to affirm and expand the spirituality of all women and men as they find new voices in the church's song.
