Projects Today; Skills for Life!

Microsoft Office 2013: ProjectLearn is a new text with a project-based approach to engage students
learning Microsoft Office 2013. The approach allows students to focus on the end result and complete the
tutorial for each Office application with quality "artifacts" - projects that help students develop a portfolio
they can display in their careers. The structured series has two projects per chapter. Additional lessons
provide a consistent framework for learning with a lesson overview, skills preview, and project practice. At
the end of each chapter are two "on your own" projects that each have three "work it out" exercises. By
working directly within the project experience, students develop a deeper understanding of how skills
essential to their future careers.

ProjectLearn is integrated with SIMnet, McGraw-Hill Education's online learning and assessment solution,
with 1:1 content to practice and master computing concepts and Microsoft Office skills.
