This book explains the year 2000 problem in non-technical terms from a woman's perspective with an emphasis on preparing your home for a possible disruption in everyday life. It not only explains the Y2K problem, but it also explains in detail why you should be prepared for any emergency, natural or man-made (Y2K). It provides answers to common questions in a "Dear Abby" like style with a focus on the special needs and concerns of women.
