Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine) K. Shimizu

The metabolic regulation of a cell system is of critical importance in systems biology, and a robust model of these mechanisms is essential in predicting the effects on the metabolism of both the culture environment and the knockout of specific genes. Bacterial cellular metabolic systems focuses on this highly topical subject in relation to culture environment and provides a detailed analysis from gene level to metabolic level regulation, as well as offering a discussion of the most recent modelling approaches. The book begins with an introduction to metabolic mechanisms and to the metabolic regulation of a cell, before moving on to discussing the action of global regulators in response to a specific culture environment. The second half of the book examines conventional flux balance analysis and its applications, 13C-metabolic flux analysis, and the effect of a specific gene knockout on the metabolism.

- Comprehensive account of metabolic regulation via global regulators in response to changes in the culture environment
- Basic formulation of 13C-metabolic flux analysis based on 13C-labelling experiments
- Systems biology approach for the modelling and computer simulation of the main metabolic pathways of a cell system

From reader reviews:

Theodore Pritchard:

The book Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine) can give more knowledge and also the precise product information about everything you want. Why must we leave a good thing like a book Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine)? Several of you have a different opinion about reserve. But one aim that book can give many data for us. It is absolutely appropriate. Right now, try to closer using your book. Knowledge or information that you take for that, you could give for each other; it is possible to share all of these. Book Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine) has simple shape nevertheless, you know: it has great and large function for you. You can seem the enormous world by start and read a publication. So it is very wonderful.

Henry Evans:

Hey guys, do you really wants to finds a new book you just read? May be the book with the concept Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine) suitable to you? The book was written by well known writer in this era. The book untitled Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine)is the one of several books this everyone read now. This kind of book was inspired lots of people in the world. When you read this e-book you will enter the new way of measuring that you ever know just before. The author explained their strategy in the simple way, and so all of people can easily to be aware of the core of this book. This book will give you a lots of information about this world now. To help you to see the represented of the world with this book.

Carolyn Cook:

You are able to spend your free time to learn this book this e-book. This Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with 13C-Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine) is simple to bring you can read it in the area, in the beach, train along with soon. If you did not get much space to bring the actual printed book, you can buy the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Tom Salgado:

What is your hobby? Have you heard that will question when you got pupils? We believe that that query was given by teacher on their students. Many kinds of hobby, Everybody has different hobby. Therefore you

know that little person just like reading or as studying become their hobby. You should know that reading is very important and book as to be the point. Book is important thing to provide you knowledge, except your own teacher or lecturer. You get good news or update in relation to something by book. Numerous books that can you go onto be your object. One of them is this Bacterial Cellular Metabolic Systems: Metabolic Regulation of a Cell System with ^{13}C -Metabolic Flux Analysis (Woodhead Publishing Series in Biomedicine).
