Active Perception and Robot Vision (Nato ASI Subseries F:)

Active Perception and Robot Vision (Nato ASI Subseries F:)

Intelligent robotics has become the focus of extensive research activity. This effort has been motivated by the wide variety of applications that can benefit from the developments. These applications often involve mobile robots, multiple robots working and interacting in the same work area, and operations in hazardous environments like nuclear power plants. Applications in the consumer and service sectors are also attracting interest. These applications have highlighted the importance of performance, safety, reliability, and fault tolerance. This volume is a selection of papers from a NATO Advanced Study Institute held in July 1989 with a focus on active perception and robot vision. The papers deal with such issues as motion understanding, 3-D data analysis, error minimization, object and environment modeling, object detection and recognition, parallel and real-time vision, and data fusion. The paradigm underlying the papers is that robotic systems require repeated and hierarchical application of the perception-planning-action cycle. The primary focus of the papers is the perception part of the cycle. Issues related to complete implementations are also discussed.

From reader reviews:

David Dugas:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a stroll, shopping, or went to the Mall. How about open or maybe read a book entitled Active Perception and Robot Vision (Nato ASI Subseries F:)? Maybe it is to be best activity for you. You understand beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with its opinion or you have different opinion?

Deborah Hayes:

As people who live in the particular modest era should be change about what going on or information even knowledge to make these people keep up with the era that is always change and move forward. Some of you maybe will certainly update themselves by studying books. It is a good choice for you but the problems coming to an individual is you don't know which you should start with. This Active Perception and Robot Vision (Nato ASI Subseries F:) is our recommendation so you keep up with the world. Why, since this book serves what you want and want in this era.

Willie Thacker:

Information is provisions for individuals to get better life, information presently can get by anyone on everywhere. The information can be a knowledge or any news even a problem. What people must be consider while those information which is within the former life are difficult to be find than now could be taking seriously which one is appropriate to believe or which one often the resource are convinced. If you have the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Active Perception and Robot Vision (Nato ASI Subseries F:) as the daily resource information.

Catherine Lyons:

Beside this Active Perception and Robot Vision (Nato ASI Subseries F:) in your phone, it can give you a way to get more close to the new knowledge or info. The information and the knowledge you will got here is fresh from the oven so don't end up being worry if you feel like an old people live in narrow small town. It is good thing to have Active Perception and Robot Vision (Nato ASI Subseries F:) because this book offers for you readable information. Do you often have book but you do not get what it's all about. Oh come on, that won't happen if you have this with your hand. The Enjoyable option here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss it? Find this book in addition to read it from at this point!
