A sporting facility cannot be maintained if the target is 'maximum usage'. The target should be 'optimal use'.

In order to get the optimal use, sporting facilities require guidelines for use. These come in the form of a usage policy and a series of maintenance procedures.

To create these planning for the inspection & evaluation of your facility is required within certain pre-determined timelines.

Determining timelines, how to handle maintenance requests and determining facility maintenance responsibilities are discussed.

This chapter concludes by instruction in evaluating your maintenance plan.
