The goal of the O'Leary Series is to give students a basic understanding of computing concepts and to build
the skills necessary to ensure that an O'Leary student has an advantage in whatever career they choose. The
text design emphasizes step-by-step instructions with full screen captures that illustrate the results of each
step performed. This method allows students to learn at their own pace. Each Tutorial (chapter) combines
conceptual coverage with detailed software-specific instructions. A running case that is featured in each
tutorial highlights the real-world applications of each software program and leads students step-by-step from
problem to solution.
