Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science)

Jaak Panksepp

Some investigators have argued that emotions, especially animal emotions, are illusory concepts outside the realm of scientific inquiry. However, with advances in neurobiology and neuroscience, researchers are demonstrating that this position is wrong as they move closer to a lasting understanding of the biology and psychology of emotion. In *Affective Neuroscience*, Jaak Panksepp provides the most up-to-date information about the brain-operating systems that organize the fundamental emotional tendencies of all mammals. Presenting complex material in a readable manner, the book offers a comprehensive summary of the fundamental neural sources of human and animal feelings, as well as a conceptual framework for studying emotional systems of the brain. Panksepp approaches emotions from the perspective of basic emotion theory but does not fail to address the complex issues raised by constructionist approaches. These issues include relations to human consciousness and the psychiatric implications of this knowledge. The book includes chapters on sleep and arousal, pleasure and fear systems, the sources of rage and anger, and the neural control of sexuality, as well as the more subtle emotions related to maternal care, social loss, and playfulness. Representing a synthetic integration of vast amounts of neurobehavioral knowledge, including relevant neuroanatomy, neurophysiology, and neurochemistry, this book will be one of the most important contributions to understanding the biology of emotions since Darwin's *The Expression of the Emotions in Man and Animals*

From reader reviews:

Scott Roche:

The book Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) can give more knowledge and also the precise product information about everything you want. So why must we leave the great thing like a book Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science)? Wide variety you have a different opinion about guide. But one aim that will book can give many facts for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or details that you take for that, you may give for each other; you can share all of these. Book Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) has simple shape but the truth is know: it has great and big function for you. You can appearance the enormous world by open and read a e-book. So it is very wonderful.

Kenneth Flowers:

Your reading 6th sense will not betray anyone, why because this Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) reserve written by well-known writer we are excited for well how to make book that could be understand by anyone who read the book. Written within good manner for you, dripping every ideas and creating skill only for eliminate your own hunger then you still question Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) as good book not merely by the cover but also by content. This is one book that can break don't evaluate book by its handle, so do you still needing yet another sixth sense to pick this!?! Oh come on your studying sixth sense already alerted you so why you have to listening to yet another sixth sense.

Jeremy Jones:

This Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) is great guide for you because the content and that is full of information for you who have always deal with world and still have to make decision every minute. This specific book reveal it details accurately using great arrange word or we can declare no rambling sentences included. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with lovely delivering sentences. Having Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) in your hand like finding the world in your arm, information in it is not ridiculous one. We can say that no guide that offer you world within ten or fifteen moment right but this reserve already do that. So , this can be good reading book. Hello Mr. and Mrs. hectic do you still doubt that will?

Ronald Canty:

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library or to make summary for some reserve, they are complained. Just little students that has reading's soul or real their

leisure activity. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Affective Neuroscience: The Foundations of Human and Animal Emotions (Series in Affective Science) can make you experience more interested to read.
