This book, written by the eminent architectural critic Kenneth Powell, provides an up-to-date overview of the work of this leading international architectural practice. Founded in 1977, with offices in London, Barcelona and Tokyo, RRP has a long-established reputation for its hi-tech and energy-efficient designs. RRP has considerable expertise in airport design -- notable examples being Terminal 5 at Heathrow Airport and Madrid's Barajas Airport. This volume also covers the practice's substantial masterplanning projects -- key projects featured include a comprehensive masterplan for the Lu Jia Zui district in Shanghai and the masterplan for the Greenwich Peninsula in London.
