Start To Finish Guide To Scripting With Kixtart (Start to Finish Guides (Agility Press)) Bob Kelly
The ultimate guide to KiXtart - tech-edited by the creator of KiXtart himself, Ruud van Velsen! As the first book available on the subject, this book is intended to satisfy the needs of both the advanced and novice KiXtart user. Though it is a scripting language used particularly by administrators, those with a development background will be impressed with the capabilities of KiXtart as well. While the book starts off quite basic, the examples and descriptions of the functions and commands of KiXtart should prove a valuable reference for even the more experienced KiXtart user. Where possible, the examples in this book are designed for "cut and paste" use in solving real-world problems, while still providing insight as to the use of the various commands and features of KiXtart.
