Alien Contact:: The Difficult Truth (Volume 1) Derek Tyler

With Alien Contact: The Difficult Truth, the long-awaited first volume of what will eventually become a multi-book series, author/researcher/abductee Derek Tyler demonstrates that he is a powerful force to be reckoned with. Drawing on a lifetime of hardcore research and personal experience, private conversations with insiders and interviews with over three thousand abductees, Mr. Tyler has produced a manuscript which will surely leave even the best ufologists in the world shaking their heads in amazement. Beginning with a description of the methods and techniques necessary to any successful study of alien contact, he provides an authoritative guideline which aspiring researchers will find to be invaluable as well as incredibly effective. After making the reader aware of the proper procedures to follow during a UFO sighting, Tyler then discusses the most extensive psychological warfare operation in history and shows how easily even the cleverest of people can be manipulated. Next he turns the tables on the scientists and debunkers, using their own tools against them. Within the space of a single chapter, Mr. Tyler constructs a brutal, brilliant debunking of his own which utterly demolishes the entire skeptical position, taking on their arguments and definitively crushing them one by one. Tyler also includes descriptions of his own, previously-unreported, sightings. The reader is allowed to share his thoughts and emotions as he re-lives an extended sighting which involved two American warplanes. He also provides fascinating transcripts of off-the-record conversations with highly-placed sources deep within the black ops community. Finally, Derek Tyler writes what is perhaps the most well-informed analysis ever produced on the topic of alien and military abductions. The level of detail contained within the descriptions of his own abductions are without precedent in the literature and will leave the reader deeply shaken. Alien Contact: The Difficult Truth offers a powerful, incisive and often terrifying look behind the veil, into a realm which is shrouded in secrecy and yet affects each of us every day. It is a document which is not to be missed and one which will forever change the way we see both ourselves and our world.
