100 Birds to See Before You Die David Chandler, Dominic Couzens

What is the fastest-growing outdoor activity in the U.S.? Snowboarding? Mountain biking? No. It's bird watching! There are currently 51.3 million dedicated birders in the U.S. with their binoculars focused on the skies. Sure to appeal to this growing flock, *100 Birds to See Before You Die* is the ultimate birdwatcher's book.

- Selected by two world-renowned birding authors, the top 100 birds include avian species that are endangered, exceptional common species, and others that have achieved legendary status.
- You won't need binoculars to spot the huge and powerful, endangered Philippine Eagle or the brightly plumed Andean Cock-of-the-Rock. Each of the 100 featured species is captured in remarkable full-color photographs in their natural habitat.
- This fascinating book combines hard-working detail with more unusual facts and mythological anecdotes, making it much more than a typical bird watching book.
- Detailed entries describe the natural history of each bird, including size, distribution, habitat, classification, population and conservation status.
