## L-Functions and Galois Representations (London Mathematical Society Lecture Note Series)

This collection of survey and research articles brings together topics at the forefront of the theory of L-functions and Galois representations. Highlighting important progress in areas such as the local Langlands programme, automorphic forms and Selmer groups, this timely volume treats some of the most exciting recent developments in the field. Included are survey articles from Khare on Serre's conjecture, Yafaev on the André-Oort conjecture, Emerton on his theory of Jacquet functors, Venjakob on non-commutative Iwasawa theory and Vigneras on mod  $p$  representations of  $GL(2)$  over  $p$ -adic fields. There are also research articles by: Böckle, Buzzard, Cornut and Vatsal, Diamond, Hida, Kurihara and R. Pollack, Kisin, Nekovář, and Bertolini, Darmon and Dasgupta. Presenting the very latest research on L-functions and Galois representations, this volume is indispensable for researchers in algebraic number theory.

### **From reader reviews:**

#### **Paul Kindig:**

The book L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) gives you the sense of being enjoy for your spare time. You need to use to make your capable considerably more increase. Book can to be your best friend when you getting stress or having big problem together with your subject. If you can make looking at a book L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) being your habit, you can get more advantages, like add your own personal capable, increase your knowledge about a few or all subjects. You could know everything if you like open and read a guide L-Functions and Galois Representations (London Mathematical Society Lecture Note Series). Kinds of book are several. It means that, science e-book or encyclopedia or other folks. So , how do you think about this book?

#### **Colin Rousey:**

Book is to be different for each grade. Book for children right up until adult are different content. As we know that book is very important for people. The book L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) ended up being making you to know about other expertise and of course you can take more information. It is rather advantages for you. The e-book L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) is not only giving you far more new information but also being your friend when you sense bored. You can spend your own spend time to read your guide. Try to make relationship together with the book L-Functions and Galois Representations (London Mathematical Society Lecture Note Series). You never really feel lose out for everything should you read some books.

#### **Steven Strong:**

Here thing why this kind of L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) are different and trusted to be yours. First of all looking at a book is good however it depends in the content than it which is the content is as yummy as food or not. L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) giving you information deeper as different ways, you can find any publication out there but there is no guide that similar with L-Functions and Galois Representations (London Mathematical Society Lecture Note Series). It gives you thrill examining journey, its open up your current eyes about the thing in which happened in the world which is perhaps can be happened around you. It is easy to bring everywhere like in playground, café, or even in your method home by train. In case you are having difficulties in bringing the paper book maybe the form of L-Functions and Galois Representations (London Mathematical Society Lecture Note Series) in e-book can be your choice.

#### **Susan Munoz:**

You can find this L-Functions and Galois Representations (London Mathematical Society Lecture Note

Series) by browse the bookstore or Mall. Only viewing or reviewing it could possibly to be your solve challenge if you get difficulties to your knowledge. Kinds of this e-book are various. Not only by written or printed but can you enjoy this book by e-book. In the modern era just like now, you just looking by your mobile phone and searching what your problem. Right now, choose your ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still change. Let's try to choose right ways for you.
