Law and Morality: Readings in Legal Philosophy (Toronto Studies in Philosophy)

Law and Morality: Readings in Legal Philosophy (Toronto Studies in Philosophy)

Since its first publication in 1996, *Law and Morality* has filled a long-standing need for a contemporary Canadian textbook in the philosophy of law. Now in its third edition, this anthology has been thoroughly revised and updated, and includes new chapters on equality, judicial review, and terrorism and the rule of law.

The volume begins with essays that explore general questions about morality and law, surveying the traditional literature on legal positivism and contemporary debates about the connection between law and morality. These essays explore the tensions between law as a protector of individual liberty and as a tool of democratic self-rule, and introduce debates about adjudication and the contribution of feminist approaches to the philosophy of law. New material on the Chinese Canadian head tax case is also featured. The second part of *Law and Morality* deals with philosophical questions as they apply to contemporary issues. Excerpts from judicial decisions as well as essays by practicing lawyers are included to provide theoretically informed legal analyses of the issues.

Striking a balance between practical and more analytic, philosophical approaches, the volume's treatment of the philosophy of law as a branch of political philosophy enables students to understand law in its function as a social institution. *Law and Morality* has proved to be an essential text in both departments of philosophy and faculties of law and this latest edition brings the debates fully up to date, filling gaps in the previous editions and adding to the array of contemporary issues previously covered.
