Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers Jean-Paul Duroudier

Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers, part of the *Industrial Equipment for Chemical Engineering* set, presents an in-depth study of a variety of aspects within the field of chemical engineering. This volume is both theoretical and practical, focusing on emulsions of one liquid into another, the dispersal of a divided solid into a liquid, and a gas into a liquid.

The book includes examples of mixtures of two powders, the process of dissolution of a powder in a liquid, and the homogenization of a pasty product. The types of devices needed, the criterion for homogeneity, the expended mechanical power, the flow processed, and the time required for the operation are also discussed.

The author provides methods needed for understanding the equipment used in applied thermodynamics in the hope of encouraging students and engineers to self build the programs they need. Chapters are complemented with appendices that provide additional information and associated references.

- Presents advanced study on the dispersion of a gas in a liquid and the dispersion of a liquid insoluble in another liquid (emulsification)
- Includes specific cases of dispersion and dissolution of powders
- Provides criteria for evaluating the homogeneity of a mixture

From reader reviews:

Adelina Thompson:

The book Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers gives you the sense of being enjoy for your spare time. You can utilize to make your capable considerably more increase. Book can to become your best friend when you getting anxiety or having big problem with your subject. If you can make studying a book Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers to become your habit, you can get a lot more advantages, like add your capable, increase your knowledge about several or all subjects. You could know everything if you like wide open and read a reserve Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this book?

Della McDonald:

What do you regarding book? It is not important together with you? Or just adding material when you really need something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make one feel bored faster. And you have time? What did you do? All people has many questions above. The doctor has to answer that question simply because just their can do this. It said that about guide. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this particular Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers to read.

Patrick Bergeron:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book was rare? Why so many problem for the book? But almost any people feel that they enjoy with regard to reading. Some people likes studying, not only science book but additionally novel and Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers or maybe others sources were given understanding for you. After you know how the truly amazing a book, you feel need to read more and more. Science e-book was created for teacher or even students especially. Those ebooks are helping them to include their knowledge. In additional case, beside science reserve, any other book likes Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers to make your spare time much more colorful. Many types of book like here.

Danielle Rucks:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information originating from a book. Book is written or printed or outlined from each source that filled update of news. On this modern era like at this point, many ways to get information are available for you actually. From media social like newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just trying to find the Solid-Solid, Fluid-Solid, Fluid-Fluid Mixers when you desired it?
