Search for the Truth shares one method of tearing down the gates of deceit that grip our world. This book is a compilation of articles which have been printed in dozens of public newspapers and church newsletters showing how well the evidence from science supports a Biblical creation viewpoint. Permission is granted for others to do the same. Also included is a sample of the many letters to the editor that resulted and the impact upon readers.

This book is divided into six sections corresponding to the different scientific disciplines dealing with the evidence for, or relevance of, creation. Each section contains individual articles about evidence for creation from these varied scientific disciplines. Anything in this book can be copied and shared with others or put to use as suggested in the last section by printing it in local newspapers. The short chapters between the *Search* articles provide a running narrative of how this book came to be, how God has used my life and this material in miraculous ways, and how you can put the same information to use.
