The Field Research Survival Guide

Arlene Rubin Stiffman

The Field Research Survival Guide Arlene Rubin Stiffman

This collection of field research narratives from veteran social and behavioral science researchers acknowledges the unpredictability of managing a project and candidly illustrates real-world problems and solutions. Unlike standard research methods texts, each chapter in this book has practical import for the researcher, ties together extant literature, and illustrates the issues with concrete examples from the authors' own experience. Chapters cover scenarios such as creating an interdisciplinary research team, hiring and training research staff and interviewers, developing the instrument, preparing data for analysis, navigating the IRB and ethical dilemmas, maintaining cultural sensitivity, evaluating the intervention, and disseminating results.

Doctoral students, junior faculty, and research assistants will appreciate this insider's look at the reality of conducting a research project. Designed to supplement traditional textbooks on research methods, *The Field Research Survival Guide* will be an ideal addition to doctoral courses in departments of social work, psychology, psychiatry, and public health, and an indispensable field guide for those managing a research project.

- An insider's guide to managing the reality of conducting a research project
- Filled with straightforward advice from seasoned researchers
- Chapter outlines summarize and map each scenario for quick reference
- Addresses real-world research dilemmas candidly and knowledgeably

From reader reviews:

Hilda Dumas:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each book has different aim as well as goal; it means that book has different type. Some people really feel enjoy to spend their time and energy to read a book. They may be reading whatever they take because their hobby will be reading a book. How about the person who don't like examining a book? Sometime, person feel need book after they found difficult problem or perhaps exercise. Well, probably you'll have this The Field Research Survival Guide.

Alva Sexton:

Information is provisions for people to get better life, information presently can get by anyone at everywhere. The information can be a understanding or any news even an issue. What people must be consider when those information which is inside the former life are hard to be find than now's taking seriously which one works to believe or which one the particular resource are convinced. If you obtain the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen with you if you take The Field Research Survival Guide as your daily resource information.

Brian Smith:

The publication untitled The Field Research Survival Guide is the guide that recommended to you you just read. You can see the quality of the publication content that will be shown to an individual. The language that creator use to explained their way of doing something is easily to understand. The writer was did a lot of analysis when write the book, hence the information that they share to your account is absolutely accurate. You also will get the e-book of The Field Research Survival Guide from the publisher to make you far more enjoy free time.

Richard Ault:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this The Field Research Survival Guide can make you truly feel more interested to read.
