Medical Epidemiology (Lange Medical Books) Raymond S. Greenberg, Stephen R. Daniels, W. Dana Flanders, John William Eley, John R. Boring

A concise, readable presentation of the principles and methods of epidemiology for health professional students, including those studying medicine, nursing, dentistry, pharmacy, and veterinary medicine. Text complements the study of biostatistics and includes patient profiles and exam-caliber questions. New to this edition: updates to tables, text and illustrations, plus a section on applying statistical principles of quality control to a physician's practice.
