This booklet is written for beginning pilots who are interested in flying the DJI Phantom 3, Standard Model and serves to supplement the DJI manual, not replace it. It takes an in-depth look at the DJI GO app, offers many useful tips, and can save you time, money, and headaches.

The information in the booklet is current as of June 2016 and is based on the DJI Manual, V1.4, and the DJI GO app, Android Version 2.8.1. However, it can also be used for the iOS version of the GO app, v2.8.3 and notes the differences.

If you are looking for a handy field reference or just want a quick study guide, this is a good resource to have.

Please note: The DJI manual and this booklet share much of the same information, but there are significant differences between them not only in terms of content but in how that content is organized and presented.
