Implementing CISCO UCS Solutions - Second Edition Anuj Modi

Key Features

- Learn how to reduce equipment and operating costs, consolidate resources, and automate data center processes
- Eliminate manual, time-consuming tasks that were traditionally required to connect servers in data centers
- A practical hands-on guide that will help you to deploy servers and application stacks with ease

Book Description

Cisco Unified Computer System (UCS) is a powerful solution for modern data centers and is responsible for increasing efficiency and reducing costs.

This hands-on guide will take you through deployment in Cisco UCS. Using real-world examples of configuring and deploying Cisco UCS components, we'll prepare you for the practical deployments of Cisco UCS data center solutions. If you want to develop and enhance your hands-on skills with Cisco UCS solutions, this book is certainly for you.

We start by showing you the Cisco UCS equipment options, then introduce Cisco UCS Emulator so you can learn and practice deploying Cisco UCS components. We'll also introduce you to all the areas of UCS solutions through practical configuration examples.

Moving on, you'll explore the Cisco UCS Manager, which is the centralized management interface for Cisco UCS. Once you get to know UCS Manager, you'll dive deeper into configuring LAN, SAN, identity pools, resource pools, and service profiles for the servers. You'll also get hands-on with administration topics including backup, restore, user's roles, and high availability cluster configuration. Finally, you will learn about virtualized networking, third-party integration tools, and testing failure scenarios.

By the end of this book, you'll know everything you need to know to rapidly grow Cisco UCS deployments in the real world.

What you will learn

- Set up your Lab using Cisco UCS Emulator
- Configure Cisco UCS, LAN, and SAN connectivity
- Create and manage Service profiles
- Perform various tasks using UCS
- Back up and restore Cisco UCS configuration
- Test various Cisco UCS scenarios

About the Author

Anuj Modi (@vConsultant) is a Senior Consulting Engineer in the Advanced Service Group at Cisco Systems and has worked in architecting and implementing Cisco's Cloud and data center solutions. He has more than 14 years' experience in the IT industry including serving various roles as IT Manager at IndSwift,

Sen. System Admin at Computer Science Corporation (CSC), and Virtualization Consultant at Hewlett Packard (HP).

He holds Bachelor's and Master's degree in Computer Applications and many industry standard certifications such as MCSE, VCP, ITIL, and CCA. He has co-authored a book on VMware NSX and Cisco Unified Computing System. His primary focus is on orchestrating and automating the infrastructure for private, public, and hybrid cloud solutions with Cisco and third-party products. He has extensive experience in datacenter assessment, planning, designing, implementing, and optimizing infrastructure, and helping customers to build and migrate to next generation data centers.
