Service Management: Operations, Strategy, Information Technology

James A. Fitzsimmons

Service Management: Operations, Strategy, Information Technology James A. Fitzsimmons

Balancing conceptual and applied coverage of all aspects of the management and operation of services, "Service Management" has maintained the position as market leader through five previous editions. It is the most comprehensive and widely used introduction to service operations on the market, written by one of the top authorities on the subject, and it is designed to develop students' skills in both strategic and operational issues pertaining to services. The Seventh Edition also offers the latest information on Six-Sigma and RFID, as well as recent developments in other important industry topics. Text coverage spans both qualitative and quantitative aspects of service management and offers flexibility in courses, offering varying approaches to the study of service operations. The new edition is designed to develop students' skills in both strategic and operational issues pertaining to services.

From reader reviews:

Raymond Hernandez:

Nowadays reading books become more than want or need but also become a life style. This reading habit give you lot of advantages. The huge benefits you got of course the knowledge even the information inside the book that improve your knowledge and information. The information you get based on what kind of guide you read, if you want attract knowledge just go with schooling books but if you want truly feel happy read one having theme for entertaining including comic or novel. Often the Service Management: Operations, Strategy, Information Technology is kind of reserve which is giving the reader unstable experience.

Nannie Hernandez:

Reading a publication tends to be new life style with this era globalization. With reading you can get a lot of information that may give you benefit in your life. Having book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire their own reader with their story or perhaps their experience. Not only the story that share in the publications. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some investigation before they write to their book. One of them is this Service Management: Operations, Strategy, Information Technology.

Joseph Singleton:

A lot of people always spent all their free time to vacation or perhaps go to the outside with them friends and family or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, or perhaps playing video games all day long. If you need to try to find a new activity honestly, that is look different you can read the book. It is really fun in your case. If you enjoy the book that you simply read you can spent the whole day to reading a reserve. The book Service Management: Operations, Strategy, Information Technology it is very good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. When you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore easily to read this book from the smart phone. The price is not too expensive but this book has high quality.

Chad Davis:

Are you kind of stressful person, only have 10 or maybe 15 minute in your moment to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are receiving problem with the book compared to can satisfy your short period of time to read it because all this time you only find guide that need more time to be examine. Service Management: Operations, Strategy, Information Technology can be your answer because it can be read by you actually who have those short time problems.
