*The Political Psychology of Women in U.S. Politics* is a comprehensive resource for students, researchers, and practitioners interested in women and politics. Highly original and drawing from the best available research in psychology and political science, this book is designed to summarize and extend interdisciplinary research that addresses how and why men and women differ as citizens, as political candidates, and as officeholders. The chapters in this volume are focused on differences in the political behavior and perceptions of men and women, yet the chapters also speak to broader topics within American politics – including political socialization, opinion formation, candidate emergence, and voting behavior. Broadly, this volume addresses the causes and consequences of women’s underrepresentation in American government.

This book is the ideal resource for students and researchers of all levels interested in understanding the unique political experiences of diverse women, and the importance of rectifying the problem of gender disparities in American politics.
