Green Streetscape Design with Stormwater Management Freek Loos, Martine van Vliet

- The first book about stormwater management utilized in urban streetscape design in China
- All the selected design cases are presented with rich design descriptions, plan drawings and beautiful photos

As people witness the effects of climate change - storms of greater frequency and severity - stormwater management in green streetscape design provides an added safeguard that can help mitigate flash flooding during these events. Green street design helps manage stormwater runoff to minimize the amount of pollutants that reach the waterways during rain storms. It also increases the safety and walkability of streets and beautify the city.

This book provides a toolkit and reference of design projects for city agencies, contractors, and landscape designers to help them achieve their goals. Offering a detailed green streetscape design guideline with accompanying stormwater management methods, the book is augmented with selected design cases, presented with rich narratives, detailed plans and drawings, and beautiful photography. This book is an informative guide for practitioners to create an attractive, efficient and sustainable urban streetscape, while managing polluted stormwater and achieving a cleaner environment.

From reader reviews:

Richard Twombly:

A lot of people always spent their very own free time to vacation or go to the outside with them household or their friend. Were you aware? Many a lot of people spent they will free time just watching TV, or perhaps playing video games all day long. If you need to try to find a new activity that is look different you can read any book. It is really fun to suit your needs. If you enjoy the book that you read you can spent the entire day to reading a e-book. The book Green Streetscape Design with Stormwater Management it doesn't matter what good to read. There are a lot of folks that recommended this book. These folks were enjoying reading this book. When you did not have enough space to create this book you can buy the e-book. You can m0ore quickly to read this book through your smart phone. The price is not to fund but this book has high quality.

Damon Smith:

Why? Because this Green Streetscape Design with Stormwater Management is an unordinary book that the inside of the guide waiting for you to snap this but latter it will zap you with the secret this inside. Reading this book beside it was fantastic author who write the book in such remarkable way makes the content on the inside easier to understand, entertaining means but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This book will give you a lot of positive aspects than the other book include such as help improving your skill and your critical thinking method. So , still want to postpone having that book? If I have been you I will go to the book store hurriedly.

Mark Carlton:

Green Streetscape Design with Stormwater Management can be one of your beginning books that are good idea. We all recommend that straight away because this guide has good vocabulary that could increase your knowledge in language, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to get every word into satisfaction arrangement in writing Green Streetscape Design with Stormwater Management but doesn't forget the main stage, giving the reader the hottest as well as based confirm resource facts that maybe you can be one of it. This great information can easily drawn you into fresh stage of crucial imagining.

Donald Oakes:

This Green Streetscape Design with Stormwater Management is great reserve for you because the content which can be full of information for you who also always deal with world and still have to make decision every minute. This particular book reveal it information accurately using great organize word or we can declare no rambling sentences inside it. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but difficult core information with beautiful delivering sentences. Having Green Streetscape Design with Stormwater Management in your hand like obtaining the world in your arm, details in it is not ridiculous 1. We can say that no publication that offer you

world throughout ten or fifteen minute right but this reserve already do that. So , this can be good reading book. Hey Mr. and Mrs. occupied do you still doubt that will?
